

## Arts and Science Champion Criteria:

Anyone may enter the Arts and Science competition, however in order to become Baronial Arts and Science Champion for the Barony of Sentinels' Keep, you must be a current member of the SCA residing within the boundaries of Montana. Anyone planning to compete for Champion needs to be sure their entries meet the following criteria:

- 1 You must enter a minimum of 4 items and a maximum of 6 items.
- 2 Your entries must include at least 2 different Grand categories.
- 3 **Each** item must have it's own documentation.
- 4 Entering in the Novice category does not count towards Champion.

Entries will be judged using the Artemisian judging criteria.

Each person's 4 highest scores (including items from 2 different categories) will be added together. The person with the highest total will be the new Champion.

The duties of the Champion include promotion the Arts and Sciences in the Barony, and assisting the Minister of Arts and Sciences in running the next competition. (Hopefully that will include writing a monthly article for the B&B)

Here is where you can find the Kingdom of Artemisia categories, sub-categories and judging criteria:

<http://www.moas.artemisia.sca.org/handbook/handbook.htm>.

If you are planning to compete for Champion, please contact (name) by (date). **If possible** we would also like to know ahead of time what you are planning to enter, be it as a display, or for competition, as we need to line up the judges. If you are planning to submit a research paper, this will need to be submitted (how long?) before the competition.
